

TAREQ ABUISSA

DATA ANALYST

319-621-3020 • abuissat@gmail.com • tareq.abuissa.net • linkedin.com/in/tareqabuissa • github.com/Tareq62

PROFESSIONAL EXPERIENCE

Wolters Kluwer Health

Implementation Support Consultant

Madison, WI
April 2022 – Present

- Coordinate implementation schedule at 15 pharmacy sites for the new release of Simplifi 797, a compliance solution.
- Migrate customer data into an updated site build, leveraging database tools, scripts, and automation.
- Remotely train pharmacy administrators on application functionality and analytics, addressing technical issues and questions.

The Society of Composers & Lyricists

New York Administrator

New York, NY
May 2019 – February 2022

- Managed film music industry seminars, speakers, and venue/Zoom logistics. Designed Mailchimp campaigns and wrote event copy.
- Resolved customer service issues with membership and registration, serving as a first point of contact and identifying root causes.
- Coordinated entries to the SCL Awards, collecting external video submission materials via web form and Dropbox upload.
- Organized a database to process eligible entries. Designed a voting ballot on The SCL's website, populated with the imported data.

South of Market: The Musical

Composer-Lyricist, Music Director

San Francisco, CA
May 2016 – October 2017

- Composed the full scores (music, lyrics, and arrangements) for two sold-out musicals satirizing San Francisco's tech industry.
- Music directed the full cast and band. Coached solo singers and accompanied all music and choreography rehearsals on piano.

The Chamber Music Society of Lincoln Center

Marketing & Development Intern

New York, NY
May – August 2015

- Marketed concert programming in online cultural calendars. Researched novel promotional outlets for an inaugural summer series.
- Tracked and analyzed financial contributions from individual donors, charitable foundations, and corporate sponsors.

Columbia University Tutoring & Translating Agency

Assistant Managing Director, Tutor

New York, NY
September 2011 – May 2014

- Organized tutoring sessions, translation requests, and notarizations for clients. Processed incoming inquiries.
- Managed a team of tutors and translators. Coordinated office operations, payments, and staff hiring.

TECHNOLOGY PROJECTS

Composer Site

Web Developer

Technologies used: HTML, CSS, Git, AWS, media embedding

tareq.abuissa.net
January 2013 – Present

- Coded and maintained a portfolio site for desktop and mobile featuring Contact, Biography, Music, Videos, and Press pages.
- Embedded SoundCloud playlists and YouTube videos into site design. Hosted image files and a resume PDF.

Multisyllabic Rhymers

Software Developer

Technologies used: Python, Pronouncing library, regular expressions

github.com/Tareq62/multisyllabic-rhymer

January – March 2017

- Coded a complete application which generates perfect, internal, and slant rhymes in response to a user-inputted word.
- Program analyzes phonemes, indexes vowel and consonant positions, and searches Pronouncing dictionary for matching rhymes.

MTG Score Counter

Web Developer

Technologies used: HTML, User Interface Design

github.com/Tareq62/MTG-Score-Counter

July 2020 – October 2021

- Coded a web application to count two players' scores. Formatted buttons so they can't get selected or cause the page to zoom in.
